Reproductive Health Services • 7411 Riggs Road, Riggs Building, Suite 300, Hyattsville, MD 20783

Abortionist Thweatt FAILED the OB/GYN Board Certification Examination 4 times.

In the case of Kelly Morse he was fraudulently advertised as being Board certified.

Thweatt gave Kelly Morse the pain killer Lidocaine, which she had reported being allergic to and immediately went into breathing difficulty. Thweatt stood and watched Morse die. In the deposition it was reported that he did not know how to properly administer a life saving drug. He improperly administered epinephrine subcutaneously instead of intravenously. The drug could not be absorbed due to Kelly's state of shock. Thweatt failed to save the life of Kelly Morse.

His abortion clinic is not regulated like a hospital.
